

Bureau

Designed by Jane Cleal
Made by James Ralph

Description

“ This bureau is in English walnut and burr walnut with a leather writing surface. The interior drawers are made from oak. It's dimensions are 1250mm high x 840 wide x 460mm deep.

Construction

The rails between the drawers were curved to allow access to a scoop handle on the edge of the drawer fronts. Having no visible handles enables the viewer to fully celebrate the graining of this stunning veneer. ”
